

CONDEMN LAND ON RED HILL LINE FOR NEW ARMY POST

Federal Government Makes
Move in Court to Secure
Ownership of More Than
Forty Acres Adjoining the
S. M. Damon Tract

SAYS LAND IS WANTED FOR FORTIFICATIONS

Property Needed, Aside From
Strategic Importance, as a
Camping Ground for Troops
Going to and From Schofield

For the purpose of erecting and maintaining a military post and fortifications, the United States government has started condemnation proceedings in federal court to secure by purchase certain lands at Red Hill, near Moanalua, and vicinity comprising approximately 42 acres.

Recently the military authorities acquired a strip of land along Red Hill from S. M. Damon, and the tract now sought, will give the army control of the what is known as the "Red Hill line."

Aside from its strategic importance, the Red Hill tract is much needed as a camping ground for troops en route to and from Schofield Barracks, and for the organized militia of the territory as a training ground and instruction camp. The property owners have always cheerfully granted permission for the use of the land, but the military authorities feel that it should be owned outright and controlled by the United States.

Petitions and summons were served by Marshal J. J. Smiddy Saturday afternoon upon 12 defendants and respondents who are either owners or representatives of the owners of the lands to be condemned. The condemnation proceeding is said to be the largest which the government has entered into in some years.

Among the defendants and respondents are Sisters Beatrice and Albertina and Abby S. Marsh of St. Andrew's priory; Henry Bond Restarick, president of the Protestant Episcopal church of the Hawaiian islands; George C. Potter, treasurer of Queen's hospital; Wade Warren Thayer, acting governor of the territory; E. F. Bishop, president of Brewer & Company, agent of the Honolulu Plantation Company; Lucy Peabody and Grace Kahalili and Bruce Cartwright, trustees under the will of Emma Kaloanani.

The lands to be condemned are described in the petition as follows: First, on Red Hill ridge along Moanalua-Halea boundary, on the island of Oahu; second, in the vicinity of Salt Lake, on the island of Oahu; third, between Makalapa crater and county road near Salt Lake, on the island of Oahu.

The reason for the condemnation is given in the petition, in part, as follows:

"Said plaintiff and petitioner (the United States government) has been and is now desirous of purchasing, acquiring, condemning and holding these certain pieces and parcels of land and their appurtenances for the erection and maintenance thereon of a military post and fortification and army station and for other public purposes of the United States of America."

The land comprises about 42.38 acres.

STORY TELLER WILL BE SENT TO HONOLULU

Tsukasa Saito, Japanese Who
Eluded Immigration Officials,
Nabbed at San Francisco

(Special to Hawaii Shippo.)
SAN FRANCISCO, June 14.—Tsukasa Saito, the Japanese who eluded the immigration officials and entered San Francisco in the guise of a ship officer on the Tenyo Maru two months ago, was caught today and taken to prison. He will likely be sent back to Honolulu.

It was known among local Japanese that Saito had managed to get out of Honolulu in spite of Consul Arita's refusal to issue him a passport. Saito was formerly a hotel keeper in Hilo. He went to Japan last year and returned four months ago with two story tellers who accompanied him on a tour of the islands. It is estimated that the trio cleared \$4000 by telling stories to Japanese audiences. When the Tenyo Maru sailed two months ago it was known that Saito was aboard in hiding, supposedly with an arrangement with the crew. Immigration Inspector Halsey wired San Francisco upon the advice of the Japanese in Honolulu and the Tenyo Maru was searched. Saito could not be found but later information received here stated that he had landed. The reason Consul Arita would not issue Saito a passport was because the latter had no occupation.

THREE-YEAR TOUR MADE TO APPLY TO NON-COMMS.

Word was received at army department headquarters today that the provisions of the three year tour are to apply not only for commissioned officers but also for non-commissioned officers above the grade of corporal. This means that such officers, after three years' service on Oahu, can be returned at will to the mainland without loss of grade.

The 24th, according to word received today, is coming back from the Philippines on the September transport, a fact which is taken to indicate a discontinuance of the so-called colonial policy in the Philippines, and also, presumably, in Hawaii, which will permit the removal of organizations instead of merely the transference of individuals.

Under the colonial policy certain regiments, as organizations, have been fixtures in the colonies, and individuals in order to return to the United States, have been compelled to seek transfer to different regiments.

BREWERY DEALS MAY BE PROBED, IS THE REPORT

Unconfirmed Rumors Bartlett Disclosures May Lead to Further Action

That an investigation by the Oahu liquor license commission into the affairs of the Honolulu Brewing & Malting Company may be made as a result of recent disclosures is an unconfirmed report that has been in circulation for several days past. Members of the commission have no comment to make on the report, though Secretary Long said today that no protest or notice of protest has been filed before the board which concerns any license.

The allegations made by minority stockholders in their suit involved misappropriations of money by Charles O. Bartlett, former president and general manager. Whether the commission will take any action to follow up these allegations and determine whether the brewery money or the former manager were involved in retail licenses remains to be seen. After Bartlett was deposed and began to repay the brewery for money which he was charged with misappropriating, H. Gooding Field, the expert accountant who had been employed by the minority stockholders to go over the books, was said to be at work on a fuller report. Weeks have passed and this report, if it was ever made to the brewery directors, has not been made public. Bartlett is reported to have made good to the amount of approximately \$40,000 and it is also reported that he had been dealing extensively with retail dealers. That the situation is such the license commission might wish to go into it with a view to finding out how much truth there is in various rumors, is the substance of the reports of the last few days.

A rumor this morning was that the

WILSON URGES PATRIOTISM IN EVERYDAY LIFE

(Associated Press by Federal Wireles.)
WASHINGTON, D. C., June 14.—President Wilson, speaking at the Flag Day exercises here today, urged that Americans remember patriotism on days other than national holidays and carry the thought of their flag and their country ever in their hearts.

He made no direct references to the war or international questions.

PUBLIC SCHOOL CHILDREN PAY HOMAGE TO FLAG

With simple but appropriate exercises the public schools of Honolulu today observed Flag Day, this being the 138th anniversary of the adoption of the American flag. The exercises consisted largely of patriotic recitations pertaining to the Stars and Stripes, and the singing of "America," the "Star Spangled Banner," and other patriotic airs.

Honolulu also paid special tribute to the flag, the Stars and Stripes being displayed on city and county, territorial and federal government buildings, and from various business houses. Many private residences throughout the city were decorated with the standard.

MORE DEFENSES FOR OAHU URGED BY CONGRESSMEN

Arriving on Coast, Prominent
Senators and Representatives
Declare Views

VISIT HERE SHOWED THEM URGENT MILITARY NEEDS

Discussion of Plans for Mid-Pacific Outpost Leads to Talks on General Policy

Substantial increases in the navy in Hawaii and the rushing of work on fortifications are advocated by the congressmen who recently visited the islands.

On their arrival on the coast the congressmen had various views concerning the sugar tariff, diversified industry and population problems here but they spoke almost without exception strongly in favor of military expansion on Oahu.

Among those urging immediate army and navy expansion for Oahu are Senator Lee S. Overman, Democrat, of North Carolina; Senator James E. Martin, Democrat, of New Jersey; Senator Albert B. Cummins, Progressive Republican, of Iowa; Senator Francis E. Warren, Republican, of Wyoming; Congressman Joseph G. Cannon, Republican, of Illinois; Congressman James R. Mann, Republican, of Illinois.

The Oakland Tribune, which interviewed a number of senators and representatives, says that the tenor of the various statements indicate plans on the part of both Democrats and Republicans to give their support, at the next session of Congress, to propositions for increasing the navy, particularly as to submarines; the building up of an efficient air corps; providing modern transportation facilities for the army; provision for a large "army reserve"; the strengthening of fortifications along all coast lines and in Hawaii, and probably an increase for the regular army.

Would Fortify Oahu.
The members were in accord in urging that Pearl Harbor, island of Oahu, be so fortified as to make it impregnable.

"Make it as strong as Gibraltar," was Senator Martin's phrase.

Shying at the danger of being called

ENTIRE CREW OF LINER KOREA IS GOING TO SCHOOL

More than 300 students are on board the Pacific Mail liner Korea, an arrival from the Orient today.

The Pacific Mail has undertaken the education of its Chinese stewards, firemen, water-tenders and sailors in the rudiments of the English language. The provisions of the recently created Seamen's Act go into effect the latter part of the year. At that time it is believed at least 75 per cent of the Asiatic crew carried in the steamers Mongolia, Manchuria, Siberia, Korea, China and Nile will have received sufficient instruction to understand any reasonable order given them in the English language.

"This does not look as though the Pacific Mail was likely to go out of business this fall or at any other distant date," commented an officer in the liner, who watched with interest the progress made by the attentive Chinese in their attempt to master a new and strange language.

Germans, who, before the war were identified with the army and navy hospital service at Tsingtau and other points in the Far East, are returning in force to the mainland as passengers in the Korea. Joining the vessel at Shanghai were 18 medical officers of various rank and station. Fifty-five employees of German hospitals are going to the fatherland by the way of the United States.

The Korea landed 14 cabin and 119 Asiatic steerage passengers. A number of Filipinos are to take up work with island sugar plantations.

The vessel was filled with freight supplied at the Philippines, China and Japan ports. It will land about 1000 tons at Honolulu and is scheduled to steam to San Francisco at 10 o'clock tomorrow morning. The Korea is said to have taken more than 5000 tons of cargo for the Pacific coast.

ITALIAN ARMY THREATENS TRIESTE NOW

HUGE CAR STRIKE IN CHICAGO WITH 14,000 MEN IDLE

Believed to Be Beginning to
Greatest Similar Fight in
History of United States—
Transportation in Chaos—
Employees Want Short Hours

(Associated Press by Federal Wireles.)
CHICAGO, Ill., June 14.—As a result of the big strike on the elevated and surface street railway lines of this city, 14,000 men are now out of employment and 1300 miles of track are idle.

The widespread strike, suddenly put into effect, almost paralyzed street railway transportation in the city. It is believed to be the beginning of the greatest street car strike in the United States.

A tremendous burden of traffic has fallen on the steam roads, which run local and express trains from downtown points to the suburbs, upon autos and vans of all sort, which have been pressed into employment to carry the hundreds of thousands who go to and from business in the city.

The cause of the strike is dissatisfaction among the street railway employees with the hours of service and with wages.

WEST VIRGINIA MUST PAY OLD VIRGINIA DEBT

WASHINGTON, D. C., June 14.—The supreme court today decided the long-standing controversy between Virginia and West Virginia. It is held that West Virginia should pay \$12,383,925 as her share of the Virginia debt at the time of the partition of the states.

ELDER ABRAHAM FERNANDEZ DIES IN HIS OFFICE

Attack of Apoplexy Instantly
Fatal to Well Known Mer-
chant and Mormon Leader

While Elder Abraham Fernandez, well-known hardware dealer and Mormon church worker, was eating lunch in his store on King street shortly after 1 o'clock this afternoon, he was stricken with apoplexy and died almost instantly.

Probation Officer John Anderson and Adelaide Grune, a daughter of Mr. Fernandez, were in the store when the latter was stricken. He had been conversing with them and, according to Mr. Anderson, appeared to be in good health and spirits. Suddenly he ceased talking and fell back in his chair. Dr. St. D. G. Walters was summoned by telephone and Mr. Anderson rendered first aid, but when the doctor arrived Mr. Fernandez was dead.

Mr. Fernandez, who was 54 years of age, was born and raised in Honolulu. He is survived by four daughters and one son, all residents of Honolulu, as well as by his wife, formerly a Miss Davis.

Immediately after the death the body of Mr. Fernandez was taken to the Silva undertaking establishment. Interment will be made at the family plot at Makiki, though no date has as yet been set for the funeral, the services preceding which will probably be held at the family home, 2001 Beckley street.

Mr. Fernandez' father was an early pioneer of the islands, and had a small business concern in Palama many years ago.

Elder Fernandez, who died today, has suffered two light apoplectic strokes before, but was considered in fairly good health.

BASEBALL RESULTS

AMERICAN LEAGUE.
At New York—First game, New York 12, St. Louis 7. Second game, New York 5, St. Louis 4.

At Washington—Chicago 8, Washington 2.
At Philadelphia—Detroit 2, Philadelphia 1.

At Boston—Boston 4, Cleveland 1.
Chicago-Boston game, at Chicago, postponed on account of rain.

At Pittsburgh—Philadelphia 4, Pittsburgh 1.
At Cincinnati—Cincinnati 5, New York 5, (postponed on account of darkness).

At St. Louis—Brooklyn 2, St. Louis 1.

For Girls' School

President Webster of the Kamehameha schools has succeeded in the mission that took him to the east coast of the mainland a number of weeks ago—the choosing of principals for the boys' and girls' Kamehameha schools.

He has sent brief word that the new principal of the girls' school has been chosen in the person of Miss Abbie H. Newton, but the trustees have no other information about her. It is thought likely that she has been a successful teacher in a girls' school in New England. The new principal of the boys' school, Mr. Boatwick, selected several weeks ago, was successful in his work with a manual training school in New Jersey. He is a Yale man, Sheffield '03.

Both are expected to arrive here within a few weeks. The schools will be closed for the summer but they will begin preparation for next year.

ELECTRIC PIANO COINING MONEY; BENNIE COSTLY

Supervisor Ben Hollinger's prediction that the new electric piano purchased by the city would soon pay for itself in revenues collected via the nickel-in-the-slot route appears to be coming true. Superintendent Wise of Kapiolani park deposited \$9.10 with the city treasurer a few days ago which was taken in by the piano in about a week's time.

Mr. Hollinger is now considering ways and means of making "Bennie," his protégé-kangaroo, do his share, as "Bennie" was included in the plan-kangaroo scheme of money-making for the municipality. "Bennie," however, has proved a disannoy.

Minor Kitchener, the British war-veteran, is said to be stronger than the British people than ever since the attack made on him by the Northcliffe papers, the Times and the Daily Mail, failed to secure his retirement. However, part of his duties have been assumed by David Lloyd-George, who has become minister of munitions. It was in the handling of the munitions that Kitchener was most severely criticized.

SUPREME COURT REFUSES REVIEW FOR CAMINETTI

Declines to Take Any Action in
Conviction of Californian
For "White Slavery"

(Associated Press by Federal Wireles.)
WASHINGTON, D. C., June 14.—The supreme court today refused to review the conviction of F. Drew Caminetti, son of the commissioner-general of immigration, who was found guilty in the California federal courts of violating the Mann "white slave" act. Former Senator Bailey filed on May 28 an application for a review.

Senator Bailey applied today for a review of the conviction of Maury I. Diggs, comrade of Caminetti. Their cases were coupled together in the California courts.

The supreme court also declined to review the reversal of the conviction of the National Cash Register Company officials for violation of the anti-trust act.

CELEBRATION OF FOURTH WILL BE BIGGER, BETTER

The Fourth of July celebration in Honolulu this year, which will be held on Monday, July 5, three weeks from today, because the Fourth falls on Sunday, will surpass any past observances of Independence Day ever held in Hawaii.

The Chamber of Commerce already has a committee at work on plans, the details of which will be made public next week. In all probability ceremonies and speeches at the capitol will be a feature of the day this year, as in years past.

TACHIYAMA STILL HOLDS FIRST PLACE IN JAPAN

(Special to Hawaii Shippo.)
TOKIO, June 13.—The ten-day wrestling tournament, in which 1000 wrestlers took part, was completed today with Tachi-yama still undisputed first champion.

STEAMERS ARE REPORTED SUNK BY SUBMARINES

(Associated Press Service by Federal Wireles.)

LUGANO, Switzerland, June 14.—Signal successes in the late campaign continue to be won by the Italian army of east. It has forced its way across the lower Isonzo, capturing Montebello, and is now pushing forward along the of Trieste toward the city of Trieste.

Further progress was reported today. The next town which is the objective of the advance is Nabresina.

LONDON, England, June 14.—Although the French appear elating in their offensive, which is netting slow progress Northwestern France, the prime importance in the war situation of Europe today is the campaign in the eastern arena. Here the Russian armies, thrown back from the Carpathians and dislodged from Przemyśl, are endeavoring to rally oppose a strong front to the victorious Austro-Germans, which are driving forward flushed with the prospect of ridding the Slavs out of Galicia and taking up a new offensive Poland.

An unconfirmed report today says that the Austro-German troops have reoccupied Zuzawa, and that farther south they have succeeded in crossing the Dniester and are on Russian in Bessarabia.

The Russians, however, are making a stand in Galicia after weeks of retreat. Their new effectiveness indicates that the shortage of ammunition has been overcome and that they now have weight of guns as well as men to oppose the Teuton Allies.

Moscow Riots Get Beyond Control Of Police; Stories of Poisoning

MOSCOW, Russia, June 14.—Moscow is in the throes of a two-days' riot growing out of anti-German demonstrations. The police are unable to control the looting and destruction in progress. The demonstrations were caused by the belief that pro-German sympathizers poisoned the drinking-water of a factory here.

Petrograd Says Enemy's Attacks Near Mosciska Cost 20,000 Lives

PETROGRAD, Russia, June 14.—German attempts to drive the Russians from their new positions at and near Mosciska, Galicia, have been very costly, according to reports here from the war front. It is declared that the Austro-Germans under Gen. von Mackensen lost 20,000 in killed alone in the effort to take the enemy's trenches.

Advices indicate that the Teuton Allies have abandoned their contemplated attack on the stronghold of Lemberg, now held by the Russians. The Teutons were making good progress toward Lemberg after the capture of Przemyśl.

Berlin Declares von Mackensen's Army Breaking in Russian Front

BERLIN, Germany, June 14.—An official announcement today says that Gen. von Mackensen's army has occupied Russian positions along the entire front from Cyerawa to Sein-iawa.
